

# Projekt létrehozása AVR Studio alatt

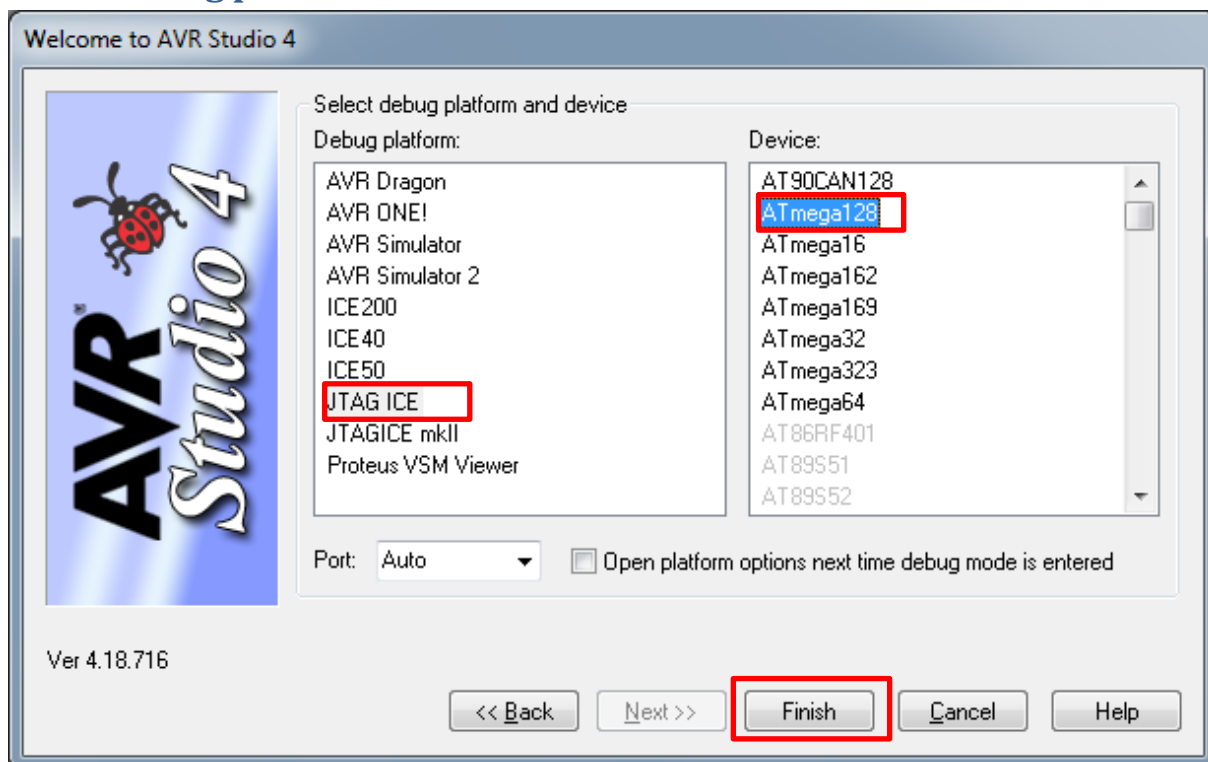

## New Project

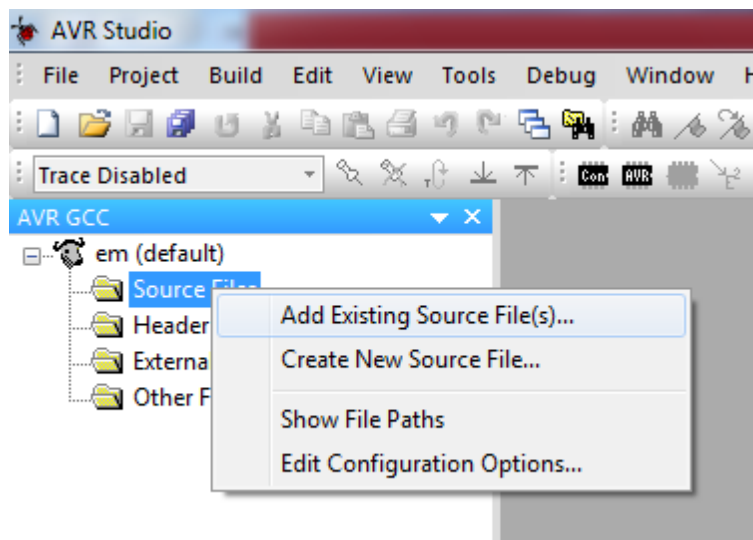

## Create new project

## Select debug platform and device

## Add Existing Source File

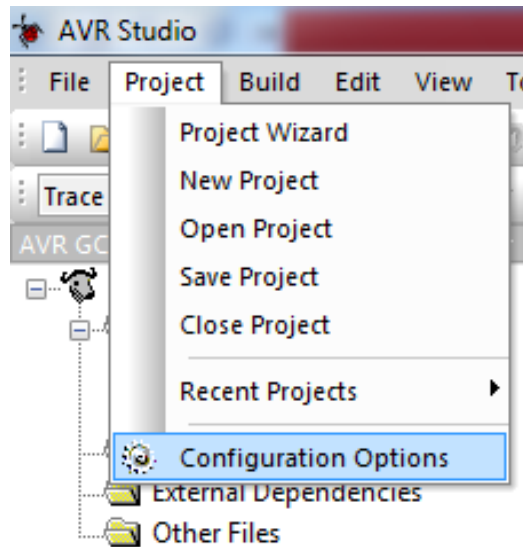

Operációs rendszeres feladatokhoz az alábbi fájlok hozzáadása szükséges:

- ucos\_src/atmega128/os\_cpu\_a.s
- ucos\_src/atmega128/os\_cpu\_c.c
- ucos\_src/core/ucos\_ii.c
- (ÉS a feladathoz szükséges vázfájlok egyike...)

## Libboard.a

Project → Configuration Options

Libraries → libboard.a → Add Library
